Section 1 Identification

Product Name: Eco Touch

Company Name and Address: Eco Innovations Inc - 42214 Water Iris Terrace Aldie, VA 20105

Business Phone: 434-602-1577

Emergency Telephone Number: CHEMTREC 1-800-424-9300 (US and Canada) All other locations 01-707-703-527-3887

Section 2 Hazards Identification

Classification of the Substance
1) ACUTE TOXICITY: ORAL Category 4
2) EYE DAMAGE/IRRITATION Category 2B or Mixture:

GHS label elements: No Symbol

Signal Word: Warning Warning

Hazard Statement: 1) H303 May be harmful if swallowed. 2) H320 Causes eye irritation

Precautionary Statements:
Prevention: Wash hands thoroughly after handling.
Response: IF SWALLOWED: Call a POISON CENTER or a doctor/physician if you feel unwell. Rinse mouth.

IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical attention.

Storage: Keep closed and away from children.

Section 3 Composition/Information on ingredients:

Substance/Mixture: Mixture

Product Description: Cleaner

Chemical Name: % IN PRODUCT CAS NUMBER

Isopropyl Alcohol- Biodegradable 67-63-0 2 to 3
Polydimethylsiloxane- Biodegradable 63148-62-9 0.5 to 1
Deionized Water 7732-18-5 93 to 95
Green Apple Scent GA <0.3
Dihydroxymethyl 6440-58-0 <1

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section. Occupational exposure limits, if available, are listed in Section 8.
Section 4 First Aid Measures:

Description of necessary first aid measures

Eye contact: Wash eyes immediately with large amounts of water.

Inhalation: Move person to fresh air at once. If breathing has stopped, get medical attention immediately.

Skin contact: No first aid should be needed, however if irritation occurs wash contacted areas with mild soap and water.

Ingestion: Do not induce vomiting. If person is conscious, give water. Get medical attention.

Most important symptoms/effects, acute and delayed

Potential acute health effects

Eye contact: Prolonged exposure can cause irritation.

Inhalation: Fine mist may cause irritation of the nose and throat.

Skin contact: Prolonged exposure can cause irritation.

Ingestion: Gastrointestinal irritation.

Over-exposure signs/Symptoms

Eye contact: Adverse symptoms may include the following: Irritation

Inhalation: Adverse symptoms may include the following: No significant effect

Skin contact: Adverse symptoms may include the following: Ingestion: Gastrointestinal irritation

Indication of immediate medical attention and special treatment needed, if necessary

Notes to physician: Treat symptomatically. Contact poison treatment specialist immediately if large quantities have been ingested or inhaled

Special Hazards

Specific treatments: No specific treatment

Protection of first-aiders: No action should be taken involving any personal risk or without suitable training. Wash contaminated clothing thoroughly with water before removing it.

Section 5 Fire Fighting Measures

Suitable extinguishing media Not a Fire Hazard Unsuitable

extinguishing media None known

Specific hazards arising from the chemical In a fire or if heated, a pressure increase will occur and the container may burst.

Hazardous thermal decomposition products

Specific protective actions for If there is a fire, Promptly isolate the scene by removing all persons from the vicinity of the fire-fighters incident.

Special protective equipment Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.

Hazardous Decomposition: None

Special Fire Fighting Procedures: None

Unusual Fire / Explosion Hazards: None
Section 6 Accidental Release Measures

**Personal precautions, protective equipment and emergency procedures**
For non-emergency: No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilled material. Shut off all ignition sources. No flames, smoking or flares in hazard area. Avoid breathing vapor or mist. Provide adequate ventilation. Wear appropriate respirator when ventilation is inadequate. Put on appropriate personal protective equipment.

For emergency responders: If specialized clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in for "For non-emergency personnel".

Environmental precautions: Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).

**Methods and materials for containment and cleaning up**

Small: Stop leak if without risk. Move containers from spill area. Dilute with water and mop up if water soluble. Alternatively, spill: or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Use spark-proof tools and explosion-proof equipment. Dispose via a licensed waste disposal contractor.

Large: Stop leak if without risk. Move containers from spill area. Prevent entry into sewers, water courses, basements or spill: confined areas. Wash spillages into an effluent treatment plant or proceed as follows. Contain and collect spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations (see Section 13). Use spark-proof tools and explosion-proof equipment. Dispose via a licensed waste contractor. Contaminated absorbent material may pose the same hazard as

Use Gloves, Goggles, Boots and Breathing Mask. Small amounts do not need special measures. Clean up with water. For large spills remove all sources of ignition. Ventilate area. Absorb with an inert absorbent material. Avoid runoff into drains and sewers. All used and unused product should be disposed of in conformance with local, state, and federal regulations.

Section 7 Handling and Storage

Precautions for safe Put on appropriate protective equipment (see Section 8). Do not get in eyes or on skin or clothing. Do handling: not ingest. Avoid breathing vapor or mist. Keep in the original container or an approved alternate made from a compatible material, keep tightly closed when not in use. Store and use away from heat, sparks, open flame or any other ignition source. Do not reuse container. Wash thoroughly after use.

Conditions for safe: Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Do not store in unlabeled containers tightly closed and away from sunlight, warm confined spaces, heat and open flame. Never weld on or near containers either empty or full. Secure all chemicals out of the reach of children.

Section 8: Exposure Controls/personal protection

**Control parameters Occupational exposure limits**

Appropriate engineering controls: No special ventilation requirements. Good general ventilation should be sufficient to control worker exposure to airborne contaminants.

**Individual protection measures**

Hygiene Measures: Wash hands forearms and face thoroughly after handling chemical products.

Eye/face protection: None.

Skin protection: None.

Respiratory protection: None.

Section 10. Stability and reactivity

| Reactivity | No specific test data related to reactivity available for this product or its ingredients |
| Chemical stability | The product is stable |
| Possibility of hazardous reactions: | Under normal conditions of storage and use, hazardous reactions will not occur |
| Conditions of instability: | When exposed to high temperatures colors may fade and bottles may panel |
| Conditions to avoid: | No specific data |
| Hazardous decomposition products: | Under normal conditions of storage and use, hazardous decomposition products should not be produced. |

- Developmental effects: Not known significant effects or critical hazards
- Fertility effects: Not known significant effects or critical hazards
Section 12. Ecological information

Toxicity: Not available
Persistence and degradability: Not available
Bio cumulative potential: Not available
Mobility in soil: soil/water partition coefficient (Koc): Not available
Other adverse effects: No known significant effects or critical hazards

Section 13. Disposal considerations

The generation of waste should be avoided or minimized wherever possible. Significant quantities of waste product residues should not be disposed of via the sewer but processes in a suitable effluent treatment plant. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Disposal of this product, solutions and any byproducts should always comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. This material and its container must be disposed of in a safe way. Care should be taken when handling empty containers that have not been cleaned or rinsed out. Empty containers or liners may retain some product residues. Vapor from product residues may create a highly flammable or explosive atmosphere inside the container. Do not cut, weld or grind used containers unless they have been cleaned thoroughly internally. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers.
