### SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1 **Product identifier**

   **Trade name** Wet Stuff Finishing Polish

1.2 **Relevant identified uses of the substance or mixture and uses advised against**

   **Relevant identified uses** vehicle polish

1.3 **Details of the supplier of the safety data sheet**

   **Commodore Sales Inc.**
   11002 Trade Rd.
   Richmond, VA 23236
   800-747-1992

   **Competent person responsible for the SDS** Robert Blahnik

1.4 **Emergency telephone number**

   **Emergency information service**
   USA 1.800.535.5053, INTL 1.352.323.3500
   24 hour emergency telephone number.

### SECTION 2: Hazards identification

2.1 **Classification of the substance or mixture**

   **Classification acc. to OSHA "Hazard Communication Standard" (29 CFR 1910.1200)**

<table>
<thead>
<tr>
<th>Annex</th>
<th>Hazard class and category</th>
<th>Hazard statement code(s)</th>
</tr>
</thead>
<tbody>
<tr>
<td>B.6</td>
<td>flammable liquids</td>
<td>Cat. 4 (Flam. Liq. 4)</td>
</tr>
<tr>
<td>A.2</td>
<td>skin corrosion/irritation</td>
<td>Cat. 2 (Skin Irrit. 2)</td>
</tr>
<tr>
<td>A.10</td>
<td>aspiration hazard</td>
<td>Cat. 1 (Asp. Tox. 1)</td>
</tr>
</tbody>
</table>

   **Remarks**
   For full text of H-phrases: see SECTION 16.

   **Hazards not otherwise classified**
   Very toxic to aquatic life with long lasting effects (GHS category 1: aquatic toxicity - acute and chronic).

   **The most important adverse physicochemical, human health and environmental effects**
   The product is combustible and can be ignited by potential ignition sources.

2.2 **Label elements**

   **Signal word** danger

   **Pictograms**
   GHS07, GHS08

   ![Pictograms Image]
Hazard statements

H227 Combustible liquid.
H304 May be fatal if swallowed and enters airways.
H315 Causes skin irritation.

Precautionary statements

Precautionary statements - prevention
Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. Wear protective gloves/protective clothing/eye protection/face protection.

Precautionary statements - response
IF SWALLOWED: immediately call a POISON CENTER or doctor/physician. Do NOT induce vomiting. In case of fire: Use sand, carbon dioxide or powder extinguisher to extinguish.

Precautionary statements - disposal
Dispose of contents/container to industrial combustion plant.

Hazardous ingredients for labelling

</tbody>
</table>

For full text of abbreviations: see SECTION 16.
**SECTION 4: First aid measures**

4.1 Description of first aid measures

**General notes**
Do not leave affected person unattended. Remove victim out of the danger area. Keep affected person warm, still and covered. Take off immediately all contaminated clothing. In all cases of doubt, or when symptoms persist, seek medical advice. In case of unconsciousness place person in the recovery position. Never give anything by mouth.

**Following inhalation**
In case of respiratory tract irritation, consult a physician. Provide fresh air.

**Following skin contact**
After contact with skin, take off immediately all contaminated clothing, and wash immediately with plenty of water.

**Following eye contact**
Irrigate copiously with clean, fresh water, holding the eyelids apart. Remove contact lenses, if present and easy to do. Continue rinsing.

**Following ingestion**
Rinse mouth with water (only if the person is conscious). Do NOT induce vomiting.

**SECTION 5: Firefighting measures**

5.1 Extinguishing media

**Suitable extinguishing media**
water spray, alcohol resistant foam, BC-powder, carbon dioxide (CO2)

**Unsuitable extinguishing media**
water jet

5.2 Special hazards arising from the substance or mixture

In case of insufficient ventilation and/or in use, may form flammable/explosive vapor-air mixture. Solvent vapors are heavier than air and may spread along floors. Places which are not ventilated, e.g. unventilated below ground level areas such as trenches, conduits and shafts, are particularly prone to the presence of flammable substances or mixtures. Explosive when mixed with combustible material.

**Hazardous combustion products**
nitrogen oxides (NOx), carbon monoxide (CO), carbon dioxide (CO2)

5.3 Advice for firefighters

In case of fire and/or explosion do not breathe fumes. Co-ordinate firefighting measures to the fire surroundings. Do not allow firefighting water to enter drains or water courses. Collect contaminated firefighting water separately. Fight fire with normal precautions from a reasonable distance.
SECTION 6: Accidental release measures

6.1 Personal precautions, protective equipment and emergency procedures

For non-emergency personnel
Remove persons to safety.

For emergency responders
Wear breathing apparatus if exposed to vapors/dust/aerosols/gases.

6.2 Environmental precautions
Keep away from drains, surface and ground water. Retain contaminated washing water and dispose it.

6.3 Methods and material for containment and cleaning up

Advices on how to contain a spill
Covering of drains.

Advices on how to clean up a spill
Wipe up with absorbent material (e.g. cloth, fleece). Collect spillage (sawdust, kieselgur (diatomite), sand, universal binder).

Appropriate containment techniques
Use of adsorbent materials.

Other information relating to spills and releases
Place in appropriate containers for disposal. Ventilate affected area.

Reference to other sections

SECTION 7: Handling and storage

7.1 Precautions for safe handling

Recommendations

Measures to prevent fire as well as aerosol and dust generation
Use local and general ventilation. Avoidance of ignition sources. Keep away from sources of ignition - No smoking. Take precautionary measures against static discharge. Use only in well-ventilated areas. Due to danger of explosion, prevent leakage of vapours into cellars, flues and ditches. Ground/bond container and receiving equipment. Use explosion-proof electrical/ventilating/lighting equipment. Use only non-sparking tools.

Warning
Places which are not ventilated, e.g. unventilated below ground level areas such as trenches, conduits and shafts, are particularly prone to the presence of flammable substances or mixtures. Vapors are heavier than air, spread along floors and form explosive mixtures with air. Vapors may form explosive mixtures with air.

Advice on general occupational hygiene
Wash hands after use. Do not to eat, drink and smoke in work areas. Remove contaminated clothing and protective equipment before entering eating areas. Never keep food or drink in the vicinity of chemicals. Never place chemicals in containers that are normally used for food or drink. Keep away from food, drink and animal feedingstuffs.
7.2 Conditions for safe storage, including any incompatibilities

Managing of associated risks

• Explosive atmospheres
  Keep container tightly closed and in a well-ventilated place. Use local and general ventilation. Keep cool. Protect from sunlight.

• Flammability hazards
  Keep away from sources of ignition - No smoking. Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. Take precautionary measures against static discharge. Protect from sunlight.

Incompatible substances or mixtures

Observe compatible storage of chemicals.

Control of the effects

Protect against external exposure, such as frost

Consideration of other advice

Ventilation requirements

Use local and general ventilation. Ground/bond container and receiving equipment.

Packaging compatibilities

Only packagings which are approved (e.g. acc. to ADR) may be used.

7.3 Specific end use(s)

See section 16 for a general overview.

SECTION 8: Exposure controls/personal protection

8.1 Control parameters

National limit values

Occupational exposure limit values (Workplace Exposure Limits)

<table>
<thead>

</tr>
</tbody>
</table>

Notation

STEL: Short-term exposure limit: a limit value above which exposure should not occur and which is related to a 15-minute period unless otherwise specified.

TWA: Time-weighted average (long-term exposure limit): measured or calculated in relation to a reference period of 8 hours time-weighted average.

Relevant DNELs/DMELs/PNECs and other threshold levels

No data available.
8.2 Exposure controls

Appropriate engineering controls
General ventilation.

Individual protection measures (personal protective equipment)

Eye/face protection
Wear eye/face protection.

Skin protection
• hand protection
Wear suitable gloves. Chemical protection gloves are suitable, which are tested according to EN 374. Check leak-tightness/impermeability prior to use. In the case of wanting to use the gloves again, clean them before taking off and air them well. For special purposes, it is recommended to check the resistance to chemicals of the protective gloves mentioned above together with the supplier of these gloves.

• other protection measures
Take recovery periods for skin regeneration. Preventive skin protection (barrier creams/ointments) is recommended. Wash hands thoroughly after handling.

Respiratory protection
In case of inadequate ventilation wear respiratory protection.

Environmental exposure controls
Use appropriate container to avoid environmental contamination. Keep away from drains, surface and ground water.

SECTION 9: Physical and chemical properties

9.1 Information on basic physical and chemical properties

Appearance
Physical state
liquid (viscous)
Color
dark grey
Odor
sweet

Other physical and chemical parameters
pH (value)
not determined
Melting point/freezing point
not determined
Initial boiling point and boiling range
>65 °C at 1 atm
Flash point
63 °C at 101.3 kPa 146 °F at 1 atm (closed cup)
Evaporation rate
not determined
Flammability (solid, gas)
not relevant (fluid)
Explosive limits
• lower explosion limit (LEL) 0.7 vol%
• upper explosion limit (UEL) 5.4 vol%
Vapor pressure
132 Pa at 25 °C
Density
not determined
Relative density
1 water = 1
Concerning incompatibility: see below "Conditions to avoid" and "Incompatible materials". The mixture contains reactive substance(s): risk of ignition. See below "Conditions to avoid".

No known hazardous reactions.

Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking.

Use explosion-proof electrical/ventilating/lighting equipment. Use only non-sparking tools. Take precautionary measures against static discharge.

There is no additional information.

Reasonably anticipated hazardous decomposition products produced as a result of use, storage, spill and heating are not known. Hazardous combustion products: see section 5.
SECTION 11: Toxicological information

11.1 Information on toxicological effects
Test data are not available for the complete mixture.

Classification procedure
The method for classification of the mixture is based on ingredients of the mixture (additivity formula).

Acute toxicity
Shall not be classified as acutely toxic.

Skin corrosion/irritation
Causes skin irritation.

Respiratory or skin sensitization
Shall not be classified as a respiratory or skin sensitizer.

Summary of evaluation of the CMR properties
Shall not be classified as germ cell mutagenic, carcinogenic nor as a reproductive toxicant.

Carcinogenicity

- National Toxicology Program (United States): none of the ingredients are listed
- IARC Monographs none of the ingredients are listed

<table>

Legend
1 Carcinogenic to humans.

Specific target organ toxicity (STOT)
Shall not be classified as a specific target organ toxicant.

Aspiration hazard
May be fatal if swallowed and enters airways.

SECTION 12: Ecological information

12.1 Toxicity

Aquatic toxicity (acute)
Shall not be classified as hazardous to the aquatic environment.

12.5 Results of PBT and vPvB assessment

Data are not available.

12.6 Other adverse effects

Data are not available.
SECTION 13: Disposal considerations

13.1 Waste treatment methods
   Waste treatment-relevant information
   Solvent reclamation/regeneration.
   Sewage disposal-relevant information
   Do not empty into drains. Avoid release to the environment. Refer to special instructions/safety data sheets.
   Waste treatment of containers/packages
   Completely emptied packages can be recycled. Handle contaminated packages in the same way as the substance itself.

13.3 Remarks
   Please consider the relevant national or regional provisions. Waste shall be separated into the categories that can be handled separately by the local or national waste management facilities.

SECTION 14: Transport information

14.1 UN number
14.2 UN proper shipping name not relevant
14.3 Transport hazard class(es)
   Class -
14.4 Packing group not relevant
14.5 Environmental hazards
14.6 Special precautions for user
   There is no additional information.
14.7 Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code
   The cargo is not intended to be carried in bulk.

SECTION 15: Regulatory information

15.1 Safety, health and environmental regulations specific for the product in question
   National regulations (United States)
   SARA TITLE III (Superfund Amendment and Reauthorization Act)
   List of Extremely Hazardous Substances (40 CFR 355) (EPCRA Section 302 and 304) none of the ingredients are listed
   Specific Toxic Chemical Listings (40 CFR 372) (EPCRA Section 313) none of the ingredients are listed

   Industry or sector specific available guidance(s)
